2021 Cuyahoga County Districting Commission

Get detailed information about the effort to redraw Cuyahoga County's 11 County Council districts.

✓ Transparent ✓ Fair ✓ Open ✓ Accountable

Find the information you need by clicking on any of the following questions:

- Why do Cuyahoga County's Council districts need to be redrawn?
- What laws govern the County Council districting process?
- What criteria will be used to make sure the County Council districts are fair?
- Who is working on the districting process?
- What do the existing and proposed maps look like?
- How are district maps drawn and what data are they based on?
- Where can I access the 2020 Census data?
- When and where are the Districting Commission meetings held?
- How do I submit questions, comments, maps or other materials to the Commission?
- Where can I see all the materials used and developed by the Commission and the questions, comments, maps, or other materials submitted to it by the public?
- Where can I find press releases and media reports about the districting process?

Cuyahoga County's districting process must be completed by September 1, 2021.
Under normal circumstances, the census data needed for districting would be released in April and the Districting Commission would have 120 days to accomplish its assigned task. This year, however, the 2020 Census was not completed on time and the necessary population data was not released until August 12, 2021, forcing the Cuyahoga County Districting Commission to complete its work in less than three weeks.

Despite the compressed timeline, the Cuyahoga County Districting Commission is committed to making the districting process open, transparent, fair and accountable to Cuyahoga County residents.

The Commission invites the citizens of Cuyahoga County, interested parties, and the media to visit the site on a regular basis as we work to complete the vitally important task of revising the County Council Districts. Questions and comments are welcome and may be submitted here.
