Service/Item Description (include quantity if applicable). When submitting an amendment, address any changes to the time period of the agreement, reduction or addition of funds, changes to the existing scope of services, changes to service rates/costs, and retroactive applicability of the changes, if any.

The work proposed includes the grading, drainage and paving with widening of 1.21 miles of Sprague Road (CR-67) including the installation of curbing, underdrains, a closed drainage system, concrete walks, ADA curb ramps, culvert replacement, water main replacement, sanitary pump station replacement, sanitary sewers, and other associated improvements.

This is the sixth and final amendment for the project. It is increasing the project by a total of \$71,497.07. This amendment contains 1 decrease, 2 increases, and 4 new items of work. Please see below for justifications.

Decrease:

- 1) Item # 295 - Force Account: Pump Station Remaining As Directed Work: This item was originally added as a contingency for remaining pump station work, and this item's decrease was used to offset the majority of the cost for the new items described below.

Increases:

- 1) Item # 122 – 8” Non-Reinforced Concrete Pavement, Class QCI, As Per Plan: Due to quantity discrepancies between the County and the Contractor, Cuyahoga County Surveyors worked to remeasure the area for this concrete item. This quantity increase allows the new authorized value to reflect the actual work performed for this item.
- 2) Item # 132 – Special – 16” Water Main Dip Class 52 Push On Joints and Fittings: The contractor provided additional documentation that showed the actual value of quantity for this item. This increase reflects that value. Documentation provided was also approved/utilized by the Cleveland Water Department.

New Items:

- 1) Item # 299 – Force Account: Sanitary Tie in Delay: Cost for equipment to be on site idle after county “stop work” request for Sanitary tie in work.
- 2) Item # 300 – Force Account: Pump Station Heater Replacement: County sanitary department requested a different heater after the first heater was approved. Subcontractor did this work on time and material as agreed upon with the county.
- 3) Item # 301 – Force Account: Demobilization: Cost to move equipment after the county directed Tri-Mor to stop working due to sanitary engineering error.
- 4) Item # 302 – Force Account: Pump Station Delay Cost: Negotiated and agreed upon timeline of delays resulting from CEI not being able to provide the correct power and for the county re-engineering the electrical work for the pump station.

Service/Item Description (include quantity if applicable). When submitting an amendment, address any changes to the time period of the agreement, reduction or addition of funds, changes to the existing scope of services, changes to service rates/costs, and retroactive applicability of the changes, if any.

Under this agreement, the CCCFDC will provide their employees with the same healthcare benefits available to County employees at that County's fully insured equivalent rate. Project Goals, Outcomes or Purpose (list 3):
