9-1-1 Technical Advisory Committee

Gates Mills Police Department 1470 Chagrin River Road Gates Mills, OH 44040

February 15, 2012

9:30 a.m.

MINUTES

Chief Szeredy called the meeting to order at 9:40. Roll call was conducted and there was a quorum.

Chief Szeredy introduced the representatives from AT&T who would be providing an educational presentation on 911 Trends, equipment, NENA standards, etc.

The two representatives proceeded with their presentation, (a copy is attached as part of the minutes). Below are some highlights:

Next Generation - NENA standards
Software based – softswitch
GIS Based routing
Standard Internet Protocol (SIP)
Nothing Proprietary
All common off the shelf components

Potential Phase 1.

Replace existing PSAP equipment with IP based call handling.

Cuyahoga County Public Safety network for connectivity of PSAPs

Expectations:

Improved redundancy and backup capability
Mapping and Management reporting to each PSAP
Public safety network would facilitate additional applications
Create virtual consolidation of hardware
Eliminate number of controllers
Allow future PSAP consolidation at minimal cost
Building block for future Next Gen applications

Potential Phase 2.

Replacement of Existing AT&T Analog 911 Network with AT&Ts ESInet.

Expectations:

Replace the existing AT&T 911 Netwrok with the IPNet ESINet – Emergency Service Information Network

IP compatible, will not require an additional upgrade, but will need to be reprogrammed and we will still need to be compatible with the analog equipment. We will actually be pulling it out when upgrading to Next Gen.

Must be NENA i3 standards.

Costs associated with the infrastructure can be based on the following:

Population

of calls

Engineering

In the millions (e.g. Tennessee \$32M)

Bandwidth requirements

Just 911 - 2 position, T1

Formula (appx. 256K/position just for 911 voice)

Stark 1 system, 8 PSAPs at each host has a 50 Mg (also includes other applications)

Recommendations:

Migrate to IP and Next Gen Technology

Upon completion of the presentation, Chief Szeredy moved the discussion on the "Other Business". The topic of a lease option came up, versus upgrading equipment and at what point would we consider a lease option versus upgrading equipment? It was agreed upon by everyone to bring them to the table to see what they have to offer.

The next meeting is scheduled for February 21, 2012 at 9:30 at Gates Mills Police Department. The purpose of this meeting is to start drafting the RFP. Captain Jackson provided copies of sample RFPs and will provide their links for everyone to review. Captain Jackson made a motion to adjourn the meeting. Captain Hannay seconded and the meeting was adjourned at 12:04 p.m.
