	The information on this Web site and any links are for your information only and does not take the place of, or is intended to be a substitute for professional medical advice, diagnosis or treatment from your doctor. Any services recommended or provided by your doctor may not be covered under the terms of your benefit plan. Eligibility and coverage are subject to the specific terms of your benefit plan.
	Please note: Some in-network hospitals may employ hospital-based providers, such as laboratories, anesthesiologists, radiologists and emergency room physicians, who are not in your plan's network. Hospital-based providers are on-site providers who perform medical services within a hospital or health center setting.
	A hospital-based provider who is not in network can charge you more than what we pay and you could be billed for the difference (up to the entire cost of the service). This is called balance billing.
	Whenever possible, please contact your provider(s) before making an appointment. Verify the provider participates in your plan's network, and, if applicable, is accepting new patients.
	Always seek care for a life-threatening emergency at the hospital nearest to you, regardless of the network status of the hospita or its hospital-based providers. In emergency situations, we will pay your plan's highest level of benefits on the allowed-amount for services provided. This may still result in balance billing.
