Much more

than a health insurance plan

Welcome to Medical Mutual. Our goal is to help you make the best health choices possible while minimizing healthcare costs. We offer a variety of programs, discounts, tools and resources designed to do exactly that.

Many Ways to Save

While Medical Mutual continuously looks for ways to make your health insurance plan more cost effective, there are several things you can do to help reduce your healthcare expenses.

Stay in Network

Save money by using doctors, hospitals, and other healthcare providers and facilities in your plan network. Going outside your plan's network may cost you more, and some services may not be covered at all. Use our Find a Provider tool on My Health Plan, our secure member website, to find providers in your plan's network before receiving any treatment or procedures.

Avoid the ER for Minor Illnesses and Injuries

For injuries or illnesses that are not life threatening, seeing your primary care provider or visiting an urgent care facility or convenience clinic for treatment can be a cost-effective alternative to the emergency room (ER). ER visits can mean long wait times and expensive out-of-pocket costs.

Know What's Covered

Review your plan's Summary of Benefits and Coverage (SBC) before you have a service or procedure to see what's covered. An SBC is a document that summarizes important information about coverage in easy-to-understand language. You can also call our Customer Care specialists at the number on your member ID card for help.

Take Care of Yourself

Preventing a disease is less of a burden than treating a disease. That's why annual checkups with your doctor are so important. Your plan includes preventive benefits that cover well visits, screenings and immunizations. The amount of coverage may vary depending on your particular plan, but out-of-pocket costs will most likely be lower than the cost of treating a condition that has progressed.
