

Use EZ Scan right at the point-of-service to scan a product's barcode and determine if it's eligible for reimbursement. If a product is eligible, EZ Scan will display "eligible" when you scan the barcode. If a product is listed as "not found," the item is not currently on the SIGIS eligible product list.

EZ Scan lets you know right away if a product is eligible or ineligible for reimbursement.

HOW TO USE EZ SCAN

1. Open the P&A MyBenefits app and click "EZ Scan" on the login page.
2. Read the instructions on the screen and click "Scan Product Barcode."
3. Scan the product's barcode using the camera on your phone (make sure there is proper light so the scanner can read the code).
4. EZ Scan will let you know if the item is "eligible" or "not found."

Download the App

Go to the App Store or Google Play and search "P&A Group MyBenefits" to download our free app.
