Please note for a variety of reasons service areas may be changed at the sole discretion of CFS, without contract amendment.

C. Each Provider will be expected to have systems in place to send and receive information; a fax machine, a telephone access system to daily reach staff for team decision meetings and computers with email and internet access for all Lead Agency Collaborative Staff assigned to this project. One staff person will have a blackberry to receive email notification for Safety Conferences.

D. The lead agency director will meet with their geographically assigned CFS Senior Manager at least quarterly to strengthen the partnership, overcome barriers, address any mutual concerns and strategize on new initiatives or practice issues that the community and CFS view as emerging trends.

E. The Lead Agency Director and Family to Family Supervisor will attend a quarterly meeting with the CFS Deputy Director and Family to Family Senior Manager to provide feedback around programs, functioning and any operational issues and concerns.

Collaborative services to CFS clients and staff are to take precedence over services provided to any other entity or initiative the collaborative staff is involved with.

2. CONTRACT

- A. This Contract will be effective for a twenty-four (24) month period, beginning April 1, 2012 through March 31, 2014. The total amount of the contract for the two year period is \$640,928.00. For purposes of this contract, each year will be from April 1 to March 31 of the following year. The contract amount for the period of April 1, 2012 to March 31, 2013 cannot exceed \$320,464.00. The contract amount for the

period of April 1, 2013 to March 31, 2014 cannot exceed \$320,464.00. These amounts establish the "maximum dollar amount" that can be expended for that particular year. A provider cannot expend amounts greater than the maximum dollar amount allotted for the particular year, April 1 to March 31. CFS will not reimburse provider for amounts expended in excess of the maximum dollar amount for the particular year, April 1 to March 31.

B Other Terms

1. Nothing in this Contract shall be construed as a guarantee by CFS that it will make any referrals to the Provider or make referrals at a level that would result in the Provider earning the Maximum Dollar Amount. CFS will pay Provider for, and Provider shall be entitled to receive payment for, services actually purchased by CFS. The amount of such payments will be determined according to the rates for such services as set forth herein.
2. The parties do not contemplate that the dollar amount for each calendar year of the Contract may be increased during the contract period.
3. If the contract funds established for each calendar year are exhausted prior to the end of that calendar year, then, Provider will continue to provide all services at the Provider's own expense until the expiration of that calendar year.
4. Amendment to Contract Amount: CFS reserves the right to unilaterally amend the maximum contract amount should it determine that the maximum contract amount will not be expended during the contract period based on CFS's quarterly projections. CFS will give notice of 21 days to the Provider advising of the proposed amendment before seeking a Cuyahoga County, Ohio resolution. The purpose of the 21 day notice is to give the parties affected a period of time to discuss the proposed adjustment or amendment.
5. Waiver: The Provider expressly waives its signature and approval of the contract amendment submitted to Cuyahoga County, Ohio permitting the adjustment/amendment, based on the information provided in the 21 day notice referenced in section 2.B.4.
6. The maximum dollar amount for the contract for the particular year specified in Section 2.A, above, is the maximum liability of CFS for services delivered under this contract for the designated time period.

3. COST AND DELIVERY OF PURCHASED SERVICES

- A. The PROVIDER shall furnish to the CFS by the fifteenth (15th) day after the end of each month, a monthly invoice describing expenditures of funds for the previous month.
- B. The invoice shall be on the form which is identified as Attachment A.
- C. PROVIDER Claims: The PROVIDER warrants that claims made to the CFS for payment of services provided shall be for actual services rendered to eligible individuals and, as outlined in this contract, and do not duplicate claims made by the PROVIDER to other sources of public or private funds for the same service.
- D. The maximum amount of administrative/ operating cost that can be charged to the Contract is 18% of the total maximum dollar amount of the Contract. This is defined as the cost necessary for operation but not directly associated with providing a service. Items to be included are rent/ Occupancy, utilities, telephone, maintenance / repair, and security. These administrative/ operating costs are to be billed in equal monthly installments throughout the contract period.
- E. No less than \$15,000 for each identified April 1 to March 31 time period (\$30,000 for the entire term of the contract) must be allotted to the direct service budget. For purposes of this contract, direct service includes wrap-around funds, prevention work, teen aging out, foster care recruitment, cluster support, and kinship care support.
- F. Provider must submit monthly invoices per section 3.A. CFS will not compensate PROVIDER for additional expenses submitted to CFS sixty (60) or more days after the last day of the month in which the expense was incurred, absent specific written approval from CFS. "Additional expenses" includes expenditures which were previously denied by CFS or expenses which were omitted from a previously submitted invoice.
- G. One time expenditures in excess of \$1,000.00 per family must be pre-approved by CFS. The Provider shall use the "Request for Funds" form, attachment B, to obtain the prior approval of CFS.

4. DELIVERABLES

A. Implement services for Families

1. Service to Families

Advocate, provide service, and support for a minimum of 300 **families per year**, promoting safety, permanency and child well-being. The families will include biological parents, kinship caregivers, foster/adoptive parents, children/teens and

young adults who have aged-out or at risk of aging out of the public child welfare system. These families may have open cases, closed cases or the need to prevent involvement with CFS or other child-serving agencies. **CFS active cases are a priority.** The approach to care and services should meet the needs of the children and families in the communities where they reside. For example, assist sibling groups in maintaining familial relationships through advocacy at staffings and other family meetings, facilitating and supporting visitation.

The Provider will service the specific needs of families involved with or at-risk of involvement with CFS through a network of community and public agencies utilizing crises intervention, case management, home visits, emergency assistance, advocacy and the wraparound process all employing formal and informal supports.

If the service of choice for the family is wraparound, the Provider will assist families with development of an Individual Wraparound Plan (IWP). The Provider shall maintain the original IWP in its files. The original IWP shall be made available to CFS, upon request, for review. The IWP should compliment the CFS case plan, if applicable. Wrap services should be coordinated with other system requirements faced by the family. Convene individual family meetings, assisting the family in developing their team and other services consistent with a high-fidelity model based on the National Wraparound Initiative. Training and coaching will be provided in partnership with Tapestry System of Care.

2. Collaborative Network

Maintain and expand a collaborative network of neighborhood/community-based services, schools, health organizations, civic entities, religious institutions, treatment facilities, foster parents and residents to meet the varied needs of children and their families. The collaborative network should be used to develop community resources to identify families for children/teens needing permanency and permanent connections.

3. Family Meeting

Attend and advocate for families at family meetings that are outlined in the RFP for which notification has been provided by CFS. **Attendance at safety conferences are the priority.** Community partners or designees attending staffings/SAR's are to be trained by designated CFS staff on the process.

- a) **Safety conferences** are the first priority. These meetings will be attended at a rate of 75% of the safety conferences notified. No less than a total of 30 meetings per month will be attended by Provider staff or a community representative on behalf of Provider. If not

notified of 30 Initial Custody staffings Provider staff will attend meetings outlined in the RFP until a minimum of 30 meetings is reached.

- b) The Provider will be notified of staffings via email, if a staffing is scheduled at short notice every attempt will be made to follow-up with a phone call. A point person should be designated by Provider to receive the daily requests for staffings. **One staff person shall have a communication device that receives emails for daily notifications of staffings such as a Blackberry, or other smart phone device. The number of emails received from CFS will be verified during the monitoring visits.** Cell phones are also required to maintain rapid contact between the Provider's staff, CFS and families. A communications system is defined as access to a combination of telephone, FAX, cell phone, (at least one with internet capability) and computers with internet/email for all lead agency collaborative staff assigned to this project.

If the Provider is invited to attend other family meetings and there is a scheduling conflict between notified family meetings, then the meetings should be prioritized for staff attendance as follows:

- (1). Safety Conferences; (2). Family Team Meetings,
- (3). Reunification Staffings, (4). Placement Preservation Staffings (5). Semi-Annual Reviews as requested and
- (6). Permanency Planning Meetings as requested. Meeting attendance will be in conjunction with the CFS social worker, to review the safety risk to children and result in the referral and support of families obtaining the most appropriate services and resources.

B. Recruitment, Adoption and Permanency

Recruitment is not limited to identifying families, it also entails the concept of development and supports to foster/adoptive/kinship parents (aka resource parents) focusing on permanency to complete the cycle of recruitment. Recruitment will be in partnership with CFS. The Provider will jointly plan with CFS a total of three community informational events per each year of the contract and a total of three recruitment events per each year of the contract. The Providers can use foster care parties as a strategy for recruitment. The recruitment messaging and efforts will change with the needs of the children/youth in care. The current need is for foster/adoptive families for our teens and sibling groups.

1. "Neighborhood-based recruitment" is defined as recruiting foster/adoptive

homes in the community from which children are removed from their primary families. Recruitment events are those events dedicated to looking for foster/adoptive families and are publicized as such. Recruitment will continue in partnership with CFS. The provider will create, with the help of CFS, a recruitment plan in writing to be submitted by June 1st at the beginning of each contract period. The Provider will create a consistent recruitment message focusing on the need of the children/youth in care. Please note that the recruitment messaging and efforts will change with the needs of the children/youth in care. The current need is for foster/adoptive families for our teens and sibling groups.

2. The Provider is required to attend Recruitment Management Team Meetings held quarterly with CFS. At this time, they will have the opportunity to discuss the recruitment plan goals and progress. Providers will also participate in scheduled learning communities in collaboration with CFS to review rules, policies and procedures as well as recruitment issues.
3. Providers are expected to engage existing licensed/approved families from their neighborhoods in recruitment efforts. A Community Informational meeting is a meeting hosted in the community by a neighborhood partner. The purpose of the meeting is to provide information about Family to Family services, foster care, and adoption. The goal of these meetings is to provide accurate information and a clearer understanding of what occurs in the process to become a licensed foster/adoptive family. The meeting will also educate participants about the needs for our children waiting to be placed in a loving, stable family. These meetings are intended to be an “introduction” to the process and occur before a family would attend the Pre-Service Orientation Training. The purpose of the meeting is to assist interested persons in making a commitment to follow through with the Pre-Service Training. Our goal is for the Provider to take the lead in addressing the need for neighborhood-based foster care with community residents which includes showcasing the waiting children. CFS staff will assist in answering questions regarding the licensure process.
4. A foster-ware party is an informal get together with at least two or more selected friends/families identified as good candidates to be a foster/adoptive family. Good candidates are those persons who are currently not licensed or approved foster/adoptive parents but are able to meet the qualifications to do so. The foster-ware or adopt-a ware parties are designed to learn more about Family to Family and becoming a foster/adoptive family. These parties are a wonderful targeted recruitment event. CFS will send out the invitations, provide support to the Provider and host of the foster/adoptive family. The party is typically hosted in the home of a current foster/adoptive parent, at a

community center, church or donated space for the event. Some of our recent foster-ware parties have used space at the neighborhood partners with a guest list developed by foster/adoptive parents as a collaborative effort. Please note: this is an example of engaging current foster/adoptive families in the recruitment effort. The Provider shall work with the Adoption staff to partner on innovative ideas for Adoption Mixers and other permanency options such as the Permanency Pact from The Foster Club Organization.

3. Support neighborhood parents and families in the foster/adoptive home-study process:

- a. Help families navigate the home-study process. Provider staff will possess a “working knowledge” of the home-study process/licensure to serve as a resource for foster and adoptive families in their community who are going through the home-study process including pre-service training, home-study, pre-placement and post-placement periods.
- b. Provider staff will participate in pre-service training rotation informing participants of county-wide and neighborhood-specific services on an ongoing basis throughout each year. CFS will provide a schedule for the rotation of meeting attendance. Please note that it makes a tremendous difference to have the Provider staff present during pre service especially session # 2, Team Building. The personal touch works so much better than a brochure. (Provider staff who have not previously attended and all new staff will attend and complete a round of pre-service training and foster parent 101 within the first year of employment)
- c. Utilizing the list of pre-service applicants that is routinely forwarded to the System of Care supervisors; communicate by mail or phone with identified community families going through the home-study process. Offer support and linkage to community resources, if appropriate, for families involved in pre-service and home-study process.
- d. Assist finding or providing assistance in over-coming barriers to licensure such as minor housing violations.
- e. Training related to the home study process will be provided. Provider staff who have not previously attended and all new staff will attend and complete a round of pre-service training and “Foster Parent 101” within the first year of employment.

4. Foster Parent Cluster Meetings

The Provider will support the foster/kinship parent cluster group in sharing information, developing recreational activities, mailings and problem solving individual foster/kinship parent and cluster barriers/issues with CFS and other child-serving agencies. The Provider should continuously update foster families on available resources in the neighborhood.

- a. The Provider will furnish child care during meetings for and host monthly foster parent cluster meetings. During foster parent cluster meetings, a separate space will be provided for child-care, staffed by approved persons identified by the Provider. Our goal for all of the children that attend these meetings is that they do some type of constructive activity that enriches their lives; (play, dance, reading, storytelling, movies, discussion, show and tell, exercise, music, arts and crafts). It is critical that age appropriate activities be encouraged and developed to assist the children's growth in the four developmental domains of social, emotional, physical, and cognitive development.

Space for childcare:

- Quiet area for school-age children to do their homework, read, have discussion with staff and each other
- Access to TV/VCR, tape players, DVD access, large blank wall space, tables, chairs
- Access to restrooms, water, and their caregivers
- Storage space for art material, TV,VCR, DVD, toys, books and crafts
- Access to a first aid kit for each cluster
- Identified staff that is available just for childcare purposes

- b. The chosen location for meetings provides the following:

- Well lit, safe parking area
- Comfortable area that is handicapped accessible
- Place where food can be served

- Allow for child care to happen in a designated area
- Tables and chairs, available with easy access to restrooms, water, and a telephone
- Storage space to store cluster materials, books, TV, VCR, DVD, tapes, child care materials and toys
- Meeting room should have outlets for TV/VCR/DVD hookups and three prong outlets for laptops (power point presentations)
- Access to emergency escapes

The Provider may choose to employ a trained child-care person who has been approved through background checks if Provider staff cannot supervise children during cluster meetings.

Child Care Staff shall:

- Be familiar with age appropriate activities
- Pass out refreshments, assist school-age children with homework, play, read, and conduct arts and crafts activities with children
- Will report to CFS via the Hotline (696-kids) any concerns of neglect and or abuse

Each cluster shall meet monthly for 10 sessions a year. The groups break two months out of the year. The break schedule is determined by the cluster co-facilitators.

C. SERVICES TO YOUNG ADULTS

1. For teens that have aged out or are at risk of “aging out” of the CFS system without community support, the Provider will assist with their Independent Living Goals. These youth need a permanent parenting relationship, permanent extended family connections and comprehensive life skills, supports and services. They will need support in the areas of education, employment, finances, housing, positive adult connections and additional services for their overall well-being. The following are examples of specific supports that should be provided through the collaborative network:

- Career preparation and assistance with Independent Living Goals

- Assistance with GED completion and other educational goals.
- Submission of college applications.
- Job coaching/placement.
- Assistance with securing housing.
- Assistance with securing medical coverage.
- Provision of “care packages” at times of need & importance i.e. for birthdays, final exams, armed force duty etc.
- Provide assistance in time of need; an emergency “safety net”, i.e. bus fare, food until the end of the month, pampers, formula etc.
- A home for the holidays for college students with no home base.
- Helping the young adult to identify, access and engage appropriate resources and supports within his or her community.
- Develop positive adult connections

D. VISITATION

Visits should occur in the least restrictive setting consistent with the goals of the case plan for the children involved, while considering the level of supervision needed to insure each child’s safety. Provider will partner with CFS to coordinate family visits and be available for monitoring of the visits. The level of monitoring supervision in conjunction with the needs of the family will be evaluated and decided on a case by case basis.

1. Provide space at the Provider’s facility or designated collaborative sites for family visitation.
2. Space must be specifically designated as family and child friendly visitation space with a minimum of distractions to private family interaction.
3. Educational games and toys should be provided.
4. All sites will utilize the CFS visitation log.
5. Provider staff will ensure that the family has case specific guidelines for visitation from their worker.
6. Each site will have CFS agency visitation handbooks as well as their own visitation guidelines, and will provide these to visiting families.

7. Provider will document ongoing efforts to establish partnership agreements with new visitation sites in the neighborhood for evening and weekend visitation events.

E. COMMUNITY RESOURCE GUIDE

Produce and or update the community resource guide at a minimum: once in every two-year contract period. In addition to hard copies of the resource guide, Provider will provide an electronic copy to add to the County's web site. This information is for distribution to CFS staff and the community.

F. Hours of Operation: Provide documentation of hours of operation and the location of sites to be used for family activities such as family meetings, family visits and collaborative meetings in the neighborhood.
