Mobile Computer Terminal (MCT)	$350/month per MCT	
Computer Aided Dispatch (CAD)	$2,200/month per CAD	
P25 IP Dispatch Console	$40/month per Console	

The Ohio Department of Administrative Services / Office of Information Technology Business Office reserves the right to adjust user fees in fiscal year 2015 and beyond based on the true cost of operating the MARCS*IP* system and the total revenue incurred.

- **Portable/Mobile Radio Service** – MARCS*IP* portable and mobile radio service allows for two-way communication imperative for first responders when performing mission-critical operations. Interoperability is accomplished through the use of Statewide Interop and subscriber-specific talk groups.

- **High Tier Control Station Radio Service** – Dispatch / 911 /Command Centers benefit from the increased capacity provided by the high-tier control station radio service. Dedicated consoles and consolettes serve multiple radio units while only doubling the rate of one stand-alone radio.

- **Mobile Computer Terminal (MCT) Service** - PremierOne Mobile is a fully integrated solution within the PremierOne CAD solution. PremierOne Mobile provides many of the same CAD features that dispatch uses in a mobile solution. Staff in the field can interact with dispatch and/or other mobile units.

- **Computer Aided Dispatch (CAD) Service** - PremierOne CAD is a highly configurable CAD solution that can be tailored to a variety of agencies. PremierOne CAD offers responding agencies quick access to incidents, staff, GIS data and many other agency specific points of interest. PremierOne CAD assists in streamlining operations from day to day.

- **P25 IP Console Dispatch Service** - An IP console is a command and control solution that is directly connected to the core MARCS*IP* Zone Controller. This console provides dispatch talk group access as well as the ability to group calls together (A.K.A. Patch) during incidents. IP consoles can provide other valuable features to an agency including prioritizing emergency calls and providing true end-to-end encryption.

Radio activation, programming, end-user training and 24/7/365 help desk support are available at no cost to the subscriber.
