SA = Supply Air

FD = Fire Damper

Inspection Dates:

November 2 2022

RA = Return Air

SD = Smoke Damper

Facility:

Bedford Jail

EA = Exhaust Air

FSD = Fire Smoke Damper

Report Date: December 1, 2022

Project: Bedford jail

Inspector(s):

- Julianne Gue, Certified Technician
- Dan Tulcewicz

Inspection and Test Date(s):

- November 2, 2022

Duct Fabricators, Inc. "Fire Safety Division" inspected thirty-four dampers for proper installation. The dampers were then tested and photographed in the "open" and "closed" positions to confirm that they were functioning as designed. Any dampers that have performed unsatisfactorily have been corrected.

NOTES: NFPA 80 and NFPA 105 require newly installed dampers to be inspected and tested one year after initial installation. At a minimum, dampers shall be visually inspected every two years and functionally inspected every four years.

Additionally, the information contained herein verified whether the dampers were functional at the time of testing. This verification process does not represent any form of a guarantee that the dampers will properly perform in the future.
