

## EAST 200<sup>TH</sup> STREET REHABILITATION PROJECT QUESTIONS LOG

**1/12/24**

Under the current Asphalt Binder Price Adjustment specification, only Ref #66 - Type 2 Intermediate Course would apply given the 1,000 CY threshold. Can you please clarify if all asphalt mixes will fall under the Binder Price Adjustment spec, or only the line items meeting the quantity threshold stated in the spec.

Mike Watson

The Shelly Company

**1/16/24**

**Answer:** As stated in the Asphalt Binder Price Adjustment Proposal Note contained in Section 400 of the Cuyahoga County Engineer Specification Booklet, the asphalt binder adjustment only applies to asphalt items listed in the General Summary with a minimum of 1,000 CY. Therefore, the asphalt binder price adjustment will only apply to Ref. No. 66, Item 441 - Asphalt Concrete Intermediate Course, Type 2, (448), As Per Plan, PG64-22.

***What material is to be used for Item 251 Partial Depth Pavement Repair (441)? Will this be a 441 Intermediate, Type 2 or Type 1? This is in reference to the APP note on Sheet 12.***
